Notes

Note **Column :**

The number after the note letter represents the 'octave' of that particular note. For example, C4 is 'Middle C' on the piano keyboard. All notes for this exercise are being generated from a Pentatonic Major Scale in the Key of C. There are no notes that are 'sharp' or 'flat'.

Time **Column :**

The number for the time represents the 'actual time' that the note was played. For example, the first note was played at 10:55:12,767 - which represents that particular note being played at 10:55 am & 12.767 seconds.

Additional Note :

In the accompanying audio and video demo files, the first note does not play until approximately 3 seconds from the beginning and the last note starts playing at approximately 3 seconds before the end.
